Link Analysis

In-Page Links

We found a total of 17 links including both internal & external links of your site

Anchor	Type	Follow
No Anchor Text	Internal Links	Dofollow
(423) 261-61-08	Internal Links	Dofollow
Больница «Сихэ»	Internal Links	Dofollow
Государственная больница традиционной китайской медицины г. Хуньчунь	Internal Links	Dofollow
Больница «Северо-восточная Азия»	Internal Links	Dofollow
Больница «Восток»	Internal Links	Dofollow
Стоматология «Боя»	Internal Links	Dofollow
Стоматология «Симэнь»	Internal Links	Dofollow
Политика конфиденциальности	Internal Links	Dofollow
обработку персональных данных	Internal Links	Dofollow
Написать в What'sApp	External Links	Dofollow

While there's no exact limit to the number of links you should include on a page, best practice is to avoid exceeding 200 links.

Links pass value from one page to another, but the amount of value that can be passed is split between all of the links on a page. This means that adding unnecessary links will dilute the potential value attributed to your other links.

Using the Nofollow attribute prevents value from being passed to the linking page, but it's worth noting that these links are still taken into account when calculating the value that is passed through each link, so Nofollow links can also dilute pagerank.
